

```
1 import { useState } from "react";
2
3 export function MyReactComponent() {
4     const { count, setCount } = useState(0);
5
6     return (
7         <div>
8             <h1>My React Component</h1>
9             <p>This is a simple React component.</p>
10            <p>Count: {count}</p>
11            <button onClick={() => setCount(count + 1)}>
12                Click me
13            </button>
14        </div>
15    );
```
